Equipment list

- A great attitude 😊
- Hat (sunglasses could be nice too)
- Warm clothes (Averages for September: High 73 ºf and Low 37 ºf; it’s going to feel cold, good to err on the side of too much here. i.e bring insulating layers, jacket, warm hat, thick socks, etc.)
- Hiking clothes (I prefer long sleeved shirts and pants to keep sun off)
- Sunscreen
- Rain Jacket
- Flash Light
- Tent
- Sleeping bag (should be warm)
- Sleeping pad
- Pillow
- Water bottle (3-4 liters is a good idea, 3 is a minimum)
- Appropriate shoes for being in the field (hiking boots or shoes and extra socks, it will be rough terrain and we’ll be on our feet all day)
- backpack
- Two lunches, breakfast, snacks (we will have some cooler space and coffee materials)
- Any relevant field gear you think you might need (pencils/pens/colored pencils/ camera if you have one)

Optional:
- Laptop w/ thumb drive
- Deet (for bugs, Kelin mentioned that it is usually not bad but it can change from year to year)
